

ICE LANTERN

Two molds are available:

Small Ice Lantern holds 3 pints of water, measures 6" high and remains frozen about 3 hours at room temperature.

Large Ice Lantern holds 5 pints of water, measures 8" high and remains frozen for about 5 hours.

DAZZLING CENTERPIECE – The cozy mood-setter is made from the star-shaped Ice Lantern mold by filling it with water and freezing. When frozen, a candle set into the center cavity and then placed in a bowl to collect melting ice.

PARTY -- Scoops of ice cream in the center is a party in itself and a favorite of youngsters.

UNFORGETTABLE WELCOME --Candlelit Ice Lanterns line the walk for a spectacular welcome to arriving visitors, especially during the holidays. The sturdy molds allow many lanterns to be made ahead, returned to the freezer until ready for use.
